care. Upon request, the nursing facility must furnish the Department of Health with additional information needed to determine a resident's classification.

D. Any change in resident class due to an assessment provided under item A must be effective on the date the resident returns to the nursing facility from the hospital. Any change in resident class due to a reassessment provided under item B must be effective as of the first of the month following the assessment.

SECTION 15:050 Change in resident class due to audits of assessments of nursing facility residents. Any change in resident class due to a reclassification must be retroactive to the effective date of the assessment audited.

SECTION 15.060 15.030 False information. If the nursing facility knowingly supplies inaccurate or false information in an assessment or a request for reconsideration, the Department shall apply the penalties in Section 2.150.

SECTION 15.065 15.040 Audit authority. The Department of Health may audit assessments of nursing facility and boarding care home residents. These audits may be in addition to the assessments completed by the Department.

The audits may be conducted at the facility, and the Department of Health may conduct the audits on an unannounced basis.

SECTION 15.067 15.050 Notice of resident reimbursement classification. On an annual basis, a nursing facility must elect either item A or item B and notify the Department of Health of the election. If no election is made, item A is the default method to notify residents of their reimbursement classification. The election will be effective the following July 1.

A. The Commissioner Department of Health shall notify generates a notice to inform each resident, and the nursing facility or boarding care home in which the resident resides, of the reimbursement classification established. The notice must inform the resident of the classification that was assigned, the opportunity to review the documentation supporting the classification, the opportunity to obtain clarification from the Commissioner, and the opportunity to request a reconsideration of the classification. The notice must be sent by firstclass mail. The notices may be are sent to the resident's nursing facility. The notice must then be distributed within three working days after the facility receives the notice. The nursing facility is responsible for the distribution of the notice to each resident, to the person responsible for the payment of the resident's nursing home expenses, or to another person designated by the resident. This notice must be distributed within three working days after the facility's receipt of the notice.

Supersedes: 02-23 (02-08/01-09/00-22/99-10/99-04/98-22/97-20/97-11/96-25/96-18/95-21/

94-23/93-35/92-28/91-15/90-24/90-01/89-58/88-65)

B. A facility generates a classification notice, as prescribed by the Department of Health, to each resident upon receipt of the confirmation of the case mix classification calculated by a facility or a corrected case mix classification as indicated on the final validation report from the Department of Health. The nursing facility is responsible for the distribution of the notice to each resident, to the person responsible for the payment of the resident's nursing home expenses, or to another person designated by the resident. This notice must be distributed within three working days after the facility's receipt of the validation report from the Department of Health. If a facility elects this option, the Department of Health will provide the facility with a list of residents and their case mix classifications as determined by the Department of Health.

C. If a facility submits a correction to an assessment conducted under Section 14.030 that results in a change in case mix classification, the facility must give written notice to the resident, to the person responsible for the payment of the resident's nursing home expenses, or to another person designated by the resident about the item that was corrected and the reason for the correction. The notice of corrected assessment may be provided at the same time that the resident, the person responsible for the payment of the resident's nursing home expenses, or another person designated by the resident is provided the resident's corrected notice of classification.

SECTION 15.070 15.060 Request for reconsideration of classification. The resident may request that the Commissioner reconsider the assigned reimbursement classification. The request must be submitted in writing within 30 days of the receipt of the notice. The documentation accompanying the reconsideration request is limited to documentation establishing that the needs of the resident at the time of the assessment resulting in the disputed classification justify a change of classification.

SECTION 15.070 Facility's request for reconsideration. In addition to the information in Section 15.070 15.060 a reconsideration request from a nursing facility must contain the following information: the date the notice was received by the facility; the date the notices were distributed to the resident; and a copy of the notice sent to the resident. This notice must tell the resident that a reconsideration of the classification is being requested, the reason for the request, that the resident's rate will change if the request is approved and the extent of the change, that copies of the facility's request and supporting documentation are available for review and that the resident also has the right to request a reconsideration. If the facility fails to provide this information with the reconsideration request, the request must be denied, and the facility may not make further reconsideration requests on that specific reimbursement classification.

94-23/93-35/92-28/91-15/90-24/90-01/89-58/88-65)

SECTION 15.077 15.080 Reconsideration. The Commissioner's reconsideration must be made by individuals not involved in reviewing the assessment that established the disputed classification. The reconsideration must be based upon the initial assessment and upon the information provided to the Department. If necessary for evaluating the reconsideration request, the Department may conduct on-site reviews. In its discretion, the Department may review the reimbursement classifications assigned to all residents in the facility. Within 15 working days of receiving the request, the Department shall affirm or modify the original resident classification. The original classification must be modified if the Department determines that the assessment resulting in the classification did not accurately reflect the needs of the resident at the time of the assessment. The resident and the nursing facility shall be notified within five working days after the decision is made. The Department's decision under this subdivision is the final administrative decision of the agency.

SECTION 15.080 15.090 Change in resident class due to a request for reconsideration of resident classification. Any change in a resident class due to a request for reconsideration of the classification must be made in accordance with items A and B.

- A. The resident classification established by the Department of Health must be the classification that applies to the resident while any request for reconsideration is pending.
- B. Any change in a resident class due to a reclassification must be effective as of the effective date of the classification established by the original assessment for which a reconsideration was requested.

SECTION 15.090 15.100 Resident access to assessments and documentation. The nursing facility must provide access to information regarding rates, assessments, and other documentation provided to the Department of Health in support of the resident's assessments to each nursing facility resident or the resident's authorized representative according to items A to D.

- A. The nursing facility must post a notice of its current rates for each resident class in a conspicuous place. The rates must be posted no later than five days after receipt by the nursing facility. The nursing facility must include a notice that the nursing facility has chosen to appeal the rates.
- B. The nursing facility must provide written notice to each private paying resident or the person responsible for payment of any increase in the total payment rate established by the Department 30 days before the increase takes effect. The notice must specify the current classification of the resident. This item does not apply to adjustments in rates due to a necessary change in the resident's classification as a result of an assessment required in this

part.

C. The nursing facility must provide each nursing facility resident or the person responsible for payment with each classification letter received from the Department of Health within five days of the receipt of the classification letter. When the private paying resident is not the person responsible for payment, the classification letter must be sent to the person responsible for payment. If the resident's classification has changed, the nursing facility must include the current rate for the new classification with the classification letter.

D. Upon written request, the nursing facility must give the resident a copy of the assessment form and the other documentation that was given to the Department to support the assessment findings. The nursing facility shall also provide access to and a copy of other information from the resident's record that has been requested by or on behalf of the resident to support a resident's reconsideration request. A copy of any requested material must be provided within three working days of receipt of a written request for the information.

SECTION 16.000 DETERMINATION OF THE PROPERTY-RELATED PAYMENT RATE

The appraised values determined under Sections 16.010 to 16.040 are not adjusted for sales or reorganizations of provider entities.

SECTION 16.010 Initial appraised value. For the rate year beginning July 1, 1985, and until August 31, 1992, the Department shall contract with a property appraisal firm which shall use the depreciated replacement cost method to determine the appraised value of each nursing facility participating in the medical assistance program as of June 30, 1985. The initial appraised value of each nursing facility and any subsequent reappraisal under Sections 16.020 and 16.030 must be limited to the value of buildings, attached fixtures, and land improvements used by the nursing facility and must be subject to the limits in Section 16.040.

For hospital-attached nursing facilities, the Department shall require the appraisal of those portions of buildings, attached fixtures, and land improvements in service areas shared between the nursing facility and the hospital. The appraised value of the shared service areas must be allocated between the nursing facility and the hospital or other nonnursing facility areas using the Medicare worksheet B-1 statistics in effect on September 30, 1984. The appraised value of the shared service areas must be allocated by stepdown placing the appraised values on the appropriate line of column 1 on the Medicare worksheet B. The appraised value of the shared service areas allocated to the nursing facility shall be added to the appraised value of the nursing facility's buildings, attached fixtures, and land improvements.

Approved:

Supersedes: 02-23 (02-08/01-09/00-22/99-10/99-04/98-22/97-20/97-11/96-25/96-18/95-21/

94-23/93-35/92-28/91-15/90-24/90-01/89-58/88-65)

For a newly-constructed nursing facility applying to participate in the medical assistance program which commenced construction after June 30, 1985 and until August 31, 1992, or a nursing facility with an increase in licensed beds of 50 percent or more, the Department shall require an initial appraisal upon completion of the construction. The construction is considered complete upon issuance of a certificate of occupancy or, if no certification of occupancy is required, when available for resident use. The property-related payment rate is effective on the earlier of either the first day a resident is admitted or on the date the nursing facility is certified for medical assistance.

SECTION 16.020 Routine updating of appraised value. For rate years beginning after June 30, 1986 and until July 1, 1992, the Department shall routinely update the appraised value according to items A to C.

A. The Department shall contract with a property appraisal firm which shall use the depreciated replacement cost method to perform reappraisals. Each calendar year, the Department shall select a random sample of not less than 15 percent of the total number of nursing facilities participating in the medical assistance program as of July 1, of that year. The sample must not include nursing facilities receiving an interim payment rate under Section 16.140. All nursing facilities in the sample must be reappraised during the last six months of the calendar year. Incomplete additions or replacements must not be included in the reappraisals. An incomplete addition or replacement is one for which a certificate of occupancy is not yet issued, or if a certificate of occupancy is not required, the addition or replacement is not available for use.

The updated appraised value for hospital-attached nursing facilities resulting from a reappraisal of shared service areas must be allocated to the nursing facility in the same ratio indicated by the Medicare stepdown in effect on September 30 of the rate year in which the reappraisal is conducted. The method described in Section 16.010, is to be used to determine allocation of the updated appraised value. The reappraised value of the shared service areas allocated to the nursing facility must be added to the reappraised value of the nursing facility's buildings. attached fixtures, and land improvements.

B. The Department shall compute the average percentage change in appraised values for the nursing facilities in the sample. The appraised value of each nursing facility not in the sample, and not reappraised under Section 16.030, must be increased or decreased by the average percentage change subject to the limits in Section 16.040. No redetermination of the average percentage change in appraised values shall be made as a result of changes in the appraised value of individual nursing facilities in the sample made after the Department's computation of the average percentage change.

94-23/93-35/92-28/91-15/90-24/90-01/89-58/88-65)

C. For hospital-attached nursing facilities not in the sample, the allocation of the appraised value of the shared service areas must be recomputed if the hospital involved experiences a cumulative change in total patient days as defined by the Medicare program of more than 15 percent from the reporting year in which the most recently used set of allocation statistics were determined. The allocation using the method described in Section 16.010 must be based on the Medicare stepdown in effect on September 30 of the rate year in which the updating of the appraised value is performed.

- D. The adjustment to the property-related payment rate which results from updating the appraised value is effective for the rate year immediately following the rate year in which the updating takes place except as provided in Section 16.140.
- E. Each calendar year that a random sample is selected in item A to compute the average percentage change in appraised values in item B, the Department shall evaluate the adequacy of the sample size according to subitems (1) to (6).
- (1) The tolerance level for an acceptable error rate must be plus or minus three percentage points.
 - (2) The confidence level for evaluating the sample size must be 95 percent.
- (3) The sample size required to be within the tolerance level in subitem (1) must be computed using standard statistical methods for determination of a sample size.
- (4) If the required sample size in subitem (3) is greater than the sample size used in item A, additional appraisals must be performed until the number of appraisals is equal to the required sample size in subitem (3). The additional nursing facilities needed to complete the required sample size must be randomly selected. A nursing facility that is receiving a special reappraisal under Section 16.030, or one that is receiving an interim payment rate under Section 16.140, or one that was appraised in the original sample in item A must be excluded. The average percentage change in appraised values in item B must be recomputed based on the increased sample size in subitem (3).
- (5) If the tolerance level in subitem (1) continues to be exceeded after applying the procedures in subitems (3) and (4), the procedures in subitems (3) and (4) must be repeated until the error rate is within the tolerance level.
- (6) If the required sample size in subitem (3) is equal to or less than the sample size used in item A, the average percentage change in appraised values must be the percentage determined in item B.

94-23/93-35/92-28/91-15/90-24/90-01/89-58/88-65)

SECTION 16.030 Special reappraisals. Special reappraisals are subject to the requirements of items A to F.

A. A nursing facility which makes an addition to or replacement of buildings, attached fixtures, or land improvements may request the Department to conduct a reappraisal upon project completion. A special reappraisal request must be submitted to the Department within 60 days after the project's completion date to be considered eligible for a special reappraisal. If a project has multiple completion dates or involves multiple projects, only projects or parts of projects with completion dates within one year of the completion date associated with a special reappraisal request can be included for the purpose of establishing the nursing facility's eligibility for a special reappraisal. A facility which is eligible to request, has requested, or has received a special reappraisal during the calendar year must not be included in the random sample process used to determine the average percentage change in appraised value of nursing facilities in the sample.

Upon receipt of a written request, the Department shall conduct a reappraisal within 60 days provided that all conditions of this section are met. The total historical cost of the addition or replacement, exclusive of the proceeds from disposals of capital assets or applicable credits such as public grants and insurance proceeds, must exceed the lesser of \$200,000 or ten percent of the most recent appraised value. The addition or replacement must be complete and a certificate of occupancy issued, or if a certificate of occupancy is not required, the addition or replacement must be available for use. Special reappraisals under this item are limited to one per 12-month period.

- B. A nursing facility which retires buildings, attached fixtures, land improvements, or portions thereof without replacement, shall report the deletion to the Department within 30 days if the historical cost of the deletion exceeds \$200,000. The Department shall conduct a reappraisal of the nursing facility to establish the new appraised value and adjust the property-related payment rate accordingly.
- C. The adjusted property-related payment rate computed as a result of reappraisals in items A and B is effective on the first day of the month following the month in which the addition or replacement was completed or when the deletion occurred.
- D. The Department shall reappraise every nursing facility at least once every seven calendar years following the initial appraisal. The Department shall reappraise a nursing facility if at the end of seven calendar years the nursing facility has not been reappraised at least once under Sections 16.020 or 16.030. The Department shall postpone the first seventh year catch-up reappraisals until the ninth year after the initial appraisal of all nursing facilities. The Department shall adjust the property-related payment rate to reflect the change in

STATE: MINNESOTA Effective: October 1, 2002

MAR 7 2003

Approved: Supersedes: 02-23 (02-08/01-09/00-22/99-10/99-04/98-22/97-20/97-11/96-25/96-18/95-21/

94-23/93-35/92-28/91-15/90-24/90-01/89-58/88-65)

appraised value. The adjustment of the property-related payment rate is effective on the first day of the rate year immediately following the reappraisal.

- E. The Department may require the reappraisal of a nursing facility within 60 days of receipt of information provided by the Minnesota Department of Health regarding the violation of standards and rules relating to the condition of capital assets.
- F. Changes in the appraised value computed in this section must not be used to compute the average percentage change in Section 16.020, item B.
- SECTION 16.035 Appraisal sample stabilization. The percent change in appraised values used for routine updating of appraised values shall be stabilized by eliminating from the sample of nursing facilities those appraisals that represent the five highest and the five lowest deviations from those nursing facilities previously established appraised values.
- SECTION 16.040 Determination of allowable appraised value. A nursing facility's appraised value must be limited by items A to G.
- A. The replacement cost new per bed limit for licensed beds in single bedrooms and multiple bedrooms is determined according to subitems (1) to (4):
- (1) For the rate year beginning July 1, 1992, the replacement-cost-new per bed limit must be \$37,786 per licensed bed in multiple bedrooms and \$56,635 per licensed bed in a single bedroom. After September 30, 1992, new projects which meet the requirements in Section 16.1374, item E, shall receive the replacement-cost-new per bed limits in that provision.
- (2) The average historical cost per bed for depreciable equipment is computed by adding the historical cost of depreciable equipment for each nursing facility as determined in Section 16.100, item A and dividing the sum by the total number of licensed beds in those nursing facilities. The amount is then subtracted from the replacement cost new per bed limits determined in subitem (1).
- (3) The differences computed in subitem (2) are the replacement cost new per bed limits for licensed beds in single bedrooms and multiple bedrooms effective for the rate year beginning on July 1, 1991.
- (4) On each succeeding January 1, the Department will adjust the limit in subitem (1) and the depreciable equipment costs in subitem (2) by the percentage change in the composite index published by the Bureau of the Census Composite fixed-weighted price of the

Page 98

United States Department of Commerce in the C30 Report, Value of New Construction Put in Place for the two previous Octobers.

- B. Each nursing facility's maximum allowable replacement cost new is determined annually according to subitems (1) to (3):
- (1) The multiple bedroom replacement cost new per bed limit in item A must be multiplied by the number of licensed beds in multiple bedrooms.
- (2) The single bedroom replacement cost new per bed limit in item A must be multiplied by the number of licensed beds in single bedrooms except as provided in Section 16.110, item C, subitem (2).
- (3) The nursing facility's maximum allowable replacement cost new is the sum of subitems (1) and (2).
- C. The nursing facility's replacement cost new determined in Sections 16.010 to 16.030 must be reduced by the replacement cost new of portions of the nursing facility used for functions whose costs are disallowed under Sections 1.000 to 19.050. Examples of such adjustments include non-nursing facility areas, or shared areas, therapy areas, day care areas, etc.
 - D. The adjusted replacement cost new is the lesser of item B or C.
- E. The adjusted depreciation is determined by subtracting from the depreciation in Sections 16.010 to 16.030 the amount of depreciation, if any, related to the portion of the nursing facility's replacement cost new disallowed in item C or D.
- F. The nursing facility's allowable appraised value is determined by subtracting the amount determined in item E from the amount in item D. If no adjustment to the replacement cost new is required in items C and D, then the nursing facility's allowable appraised value is the appraised value determined in Sections 16.010 to 16.030.
- G. A nursing facility which has reduced licensed bed capacity after the preceding January 1, shall be allowed to aggregate the applicable replacement cost new per bed limits based on the number of beds licensed prior to the reduction; and establish capacity days for each rate year following the licensure reduction based on the number of beds licensed on the previous April 4. The notification must include a copy of the delicensure request that has been submitted to the Commissioner of health.

94-23/93-35/92-28/91-15/90-24/90-01/89-58/88-65)

SECTION 16.050 Allowable debt. For purposes of determining the property-related payment rate, the Department shall allow or disallow debt according to items A to F.

A. Debt shall be limited as follows:

- (1) Debt incurred for the purchase of land directly used for resident care and the purchase or construction of nursing facility buildings, attached fixtures, or land improvements or the capitalized replacement or capitalized repair of existing buildings, attached fixtures, or land improvements shall be allowed. Debt incurred for any other purpose shall not be allowed.
 - (2) Working capital debt shall not be allowed.
- (3) An increase in the amount of a debt as a result of refinancing of capital assets which occurs after May 22, 1983, shall not be allowed except to the extent that the increase in debt is the result of refinancing costs such as points, loan origination fees, or title searches.
- (4) An increase in the amount of total outstanding debt incurred after May 22, 1983, as a result of a change in ownership or reorganization of provider entities, shall not be allowed and the previous owner's allowable debt as of May 22, 1983, shall be allowed under item B.
- (5) Any portion of the total allowable debt exceeding the appraised value as determined in Section 16.040 shall not be allowed.
- (6) Any portion of a debt of which the proceeds exceed the historical cost of the capital asset acquired shall not be allowed.
- (7) Debt associated with the appraised value, is subtracted form each facility's appraised value and the result is multiplied by 5.66%. The facility's interest expense, as limited by floating and absolute maximum rates is added.
- B. The nursing facility shall apportion debts incurred before October 1, 1984, among land and buildings, attached fixtures, land improvements, depreciable equipment and working capital by direct identification. If direct identification of any part of the debt is not possible, that portion of the debt which cannot be directly identified shall be apportioned to each component, except working capital debt, based on the ratio of the historical cost of the component to the total historical cost of all components. The portion of debt assigned to land
